

Blue Music Production - EPK:

BIO

Blue Music Production was started in 2007 by Kevin Boyd and Jack Sloan. While producing tracks on the side, Mr. Boyd thought it was a good idea to start a production company. He decided to call on longtime friend Jack Sloan to help him create this company. It was also a given that they bring their friend Blue into the company because of his knack for making beats. In 2008 Mr. Boyd met DJ ZetRoc and it was decided that he join Blue Music Production, he brings DJ knowledge and great piano skills to the company. Together, they have already produced tracks for artists such as El Gato, C. Baker, Slim'm, Lil Rick, Deshawn White, Blokstar, Miss Key, D2thaLo, Lil Smurf, and B.U.G. These artists and others will all be featured on an upcoming mixtape. Blue Music Production really wants to be able to connect with other artists, producers, writers, and engineers to create a network that will be able to benefit everyone involved. The much anticipated mixtape, "The Bridge, Vol. I" was released in May featuring other artists such as Heavy Chill, Kaki Mac, and Dizzy D. This mixtape is still FREE!!! Also in August, K. Boyd released his third mixtape which featured tracks from Blue Music Production as well as mixing and mastering done by the company.
